PROFESSIONAL SUMMARY

Aspiring Data Analyst with a B.Sc. in Industrial Chemistry (Second Class Upper) and hands-on experience in data analysis using Power BI, SQL, and Excel. Experienced in transforming raw datasets into meaningful insights through dashboards, database querying, and sales analysis projects. Strong foundation in data handling, documentation, and structured problem-solving gained through administrative and customer service roles. Seeking a Data Analyst role to apply analytical skills in a professional environment.

TECHNICAL SKILLS

- Power BI, Microsoft Excel (Pivot Tables, Charts), SQL
- Data Cleaning, Data Transformation, Data Visualization
- Database Querying (Joins, Aggregations, Filtering)
- Analytical Thinking, Attention to Detail, Communication, Problem Solving

PROJECT EXPERIENCE

1. Space Mission Analysis – Power BI

- Built interactive dashboard analyzing global space missions by country and year.
- Cleaned and transformed datasets using Power Query.
- Identified trends in launch frequency and mission success rates.
- Presented insights using clear visual storytelling techniques.

2. Coffee Shop Sales Analysis – Excel

- Analyzed retail sales dataset using Pivot Tables and charts.
- Identified peak sales periods and high-performing products.
- Evaluated revenue patterns to support business performance assessment.

3. Restaurant Orders Analysis – SQL

- Queried relational database using joins and aggregation functions.
- Extracted structured data to analyze customer ordering patterns.
- Generated insights on product demand and operational trends.

RELEVANT EXPERIENCE

1. Administrative Support – NYSC, University of Ibadan

- Managed structured data entry and verification processes.
- Maintained organized digital and physical record systems.
- Ensured high accuracy in documentation and reporting.
- Supported workflow efficiency through systematic data management.

2. Customer Service Officer – Moniepoint Office

- Maintained accurate transaction records and financial data logs.
- Assisted customers by reviewing and analyzing transaction details.
- Ensured compliance with operational and reporting procedures.

3. Industrial Trainee – International Institute of Tropical Agriculture

- Supported laboratory data documentation and reporting.
- Assisted with structured data recording and quality control processes.

EDUCATION

B.Sc. Industrial Chemistry (Second Class Upper – 2:1)

Olabisi Onabanjo University (2019-2024)
